PRESENTS

Anjali, born in 1994 in Geneva, Switzerland started learning dance at the tender age of 7. She started learning from her mother Aparna Raghavan, and continued to learn at Bharatakalanjali during her summer vacations. She found her perfect Guru with Dr. Anitha Vallabh. Anjali is also learning Kathak under the tutelage of Nathalie Rapaille.

She equally looks ahead to a career in medicine. Anjali will be performing her grand-father Padma Bhushan Dr. T.V. Gopalakrishnan's compositions specially created for her. She thanks her parents, grand-parents and teachers for inculcating an abiding love for nātyam and the memorable experience of learning.

"Naatyam is a comprehensive study of human values and knowledge. In Naatyam, you learn music, science, mathematics, environmental science, and total discipline of body, mental as well as spiritual. That is the greatness of Naatyam".
