*December 5th to 10th

Namaskaram,

As part of the December Festivities of learning and knowledge, Bharata Kalanjali is conducting two specific workshops for Present, Visiting & Alumni Students. This workshop is also open to other dancers who are keen to attend. Both these workshops

are for advanced students of Natya who wish to equip themselves with these two seemingly counter facing aspects of Natya.

One that explores the extempore and the other that creates within a limited pattern.

Both these topics have been specifically chosen by Akka and Master keeping in mind the need for these to be addressed in todays Natya practice.

Coincidentally, these also deal with their own favourites and specialities which they are endeared for. Pushkala Akka will be conducting the Theermana workshop.
